Scoring Process and Officiating

1. **Scoring Table:** a dedicated scoring table in the Pacific Junior Room where players and markers, accompanied by their parents, officially submit their scorecards to the officials. This process will allow for the scores to be reviewed and marked on the spot, ensuring that all calculations are correct before leaving the competition. The cards will be swapped within the group so everyone agrees on all scores.
2. **Official Card Submission:** Players must hand over their scorecards to the officials at the scoring table immediately upon completion of their round. If they fail to do this, they will unfortunately be disqualified. This will prevent the possibility of players taking their scorecards away to adjust later.
3. **Immediate Attention to Discrepancies:** Having the players and their parents present during the card submission will allow any discrepancies or issues to be addressed and resolved promptly, avoiding delays or confusion afterward. The official on the day will have the final say if any discrepancies if the player is dissatisfied with the outcome, it should be addressed to the committee in writing contact information on the Pacific website.
